

PUBLIC HEALTH TRUST BOARD OF TRUSTEES TELEVISED MEETING AGENDA

**WEDNESDAY, OCTOBER 30, 2024
12:30 PM**

**IRA C. CLARK DIAGNOSTIC TREATMENT CENTER (DTC)
SECOND FLOOR, CONFERENCE ROOM 259
1080 N. W. 19TH STREET
MIAMI, FL 33136**

Public Health Trust Board Rules

Any person making impertinent or slanderous remarks or who becomes boisterous while addressing the committee, shall be barred from further audience before the committee, unless permission to continue or again address the committee be granted by the Chairperson. No clapping, applauding, heckling or verbal outbursts in support or opposition to a speaker or his or her remarks shall be permitted. No signs or placards shall be allowed in the Board Room. Persons exiting the Board Room shall do so quietly.

The use of cell phones in the Board Room is not permitted. Ringers must be set to silent mode to avoid disruption of proceedings. Individuals, including those seated around the board table, must exit the Board Room to answer incoming cell phone calls.

7. APPROVAL OF PREVIOUS MEETING MINUTES FOR JULY 31, 2024

Motion to approve the previous meeting minutes

Amadeo Lopez-Castro III, Chairman

Carmen M. Sabater, moved to approve the previous meeting minutes; seconded by Walter T. Richardson, and carried without dissent.

8. CHAIRMAN'S REPORT

Amadeo Lopez-Castro III, Chairman welcomed Ms. Mojdeh L. Khaghan as a returning member of the Public Health Trust Board of Trustees.

Mr. Lopez-Castro also recognized Mr. Mike Abrams expressing gratitude for his unwavering efforts toward the Jackson Health System and the State of Florida.

9. PRESIDENT AND CHIEF EXECUTIVE OFFICER REPORT

Carlos A. Migoya, President and Chief Executive Officer of Jackson Health System (JHS), announced the launch of a comprehensive survey aimed at assessing the culture of safety within the health system. This initiative reflects JHS's ongoing commitment to providing the highest quality of care and ensuring a safe environment for patients and employees.

The survey will collect valuable feedback from employees regarding safety practices, communication, engagement among staff and physicians, and areas needing improvement. Maintaining a strong culture of safety is essential to the system's mission, and input from employees will provide critical insights to foster a supportive and productive workplace.

Administered by the independent company Press Ganey, the survey guarantees confidentiality. Responses are completely anonymous, and employees are encouraged to share their opinions openly and honestly. The feedback is crucial for continuing the journey of transformation and clinical excellence. Questions cover various topics, including teamwork, leadership commitment to patient safety, work processes, the ability to speak up, and workplace safety. A free-response section is included for comments on workplace practices that may affect patient safety.

The results of the survey will be thoroughly reviewed, with key findings shared with leaders, team members, and the Board. They will also be published online in early 2025 to comply with a new AHCA requirement. Based on the insights gained, action plans will be developed to address identified areas for improvement.

In the previous safety and employee engagement survey conducted in 2022, JHS achieved a 75 percent participation rate, with hopes to exceed this in the current survey. Feedback from two years ago was taken seriously, resulting in significant progress, such as a 35 percent reduction in harm events over the last two years, thanks to consistent reporting of safety incidents and leadership encouraging employees to speak up without fear of reprisal.

9. PRESIDENT AND CHIEF EXECUTIVE OFFICER REPORT *(Continued)*

Additionally, the employee wellness program has been enhanced to include a wide range of virtual and on-site mental health support, and Zen rooms have been established for employees to decompress and disconnect.

Another major systematic change is the implementation of a tiered huddle structure that allows for the quick submission, review, and escalation of safety events by senior leadership, the risk management team, and other key individuals. Daily huddles occur at hospitals on each unit, followed by a senior leadership huddle where leaders report any issues of concern and request assistance as needed. These meetings, while brief and efficient, improve communication, facilitate early issue detection, and enhance the safety culture through collaborative problem-solving and engagement at all levels.

Mr. Migoya concluded by emphasizing that employee surveys are vital tools for organizations, especially large ones like Jackson Health System, to maintain a motivated, informed, and empowered workforce while enabling leaders to focus on continuously improving the work environment.

10. COMMITTEE REPORTS

(a) Joint Conference and Efficiencies Committee

(b) Fiscal Committee

(c) Strategy and Growth Committee

The Chairperson or Vice-Chairperson of each committee presented a brief summary of the committee's discussions, the reports that were presented and action items that were accepted with a favorable recommendation to the Board of Trustees. The committees met on September 24, 2024.

11. RESOLUTIONS RECOMMENDED BE APPROVED

Jackson Health System

DATE: October 30, 2024

RE: Ryder Trauma Center Verification

Recommendation

Staff recommends the Public Health Trust Board of Trustees reaffirm its strong support for Jackson Memorial Hospital's reverification from the American College of Surgeons to provide trauma services at Ryder Trauma Center as a verified Level I trauma center. To commit to participate in the state/regional trauma system and the local or regional trauma system.

Scope

The Boards' commitment to Ryder Trauma includes support for the program's financial, human, and physical needs, as well as its mission to provide world-class care for all trauma patients, regardless of color, creed, sex, nationality, place of residence, or financial status.

Fiscal Impact

There is no fiscal impact to reaffirming the Board's support of the Jackson Memorial trauma designation. Expenses related to Ryder Trauma are included in the Trust's annual operating and capital budgets.

Background

Since 1992, Ryder Trauma Center has been a state-designated Level I trauma center, and has been dedicated to saving the lives of adults and children with life-threatening, traumatic injuries. Ryder Trauma has emerged as a global center for clinical care and research. Reaffirming the Board's commitment to Ryder Trauma helps position the program in advance of its upcoming survey by the American College of Surgeons.

**Agenda Item 11.b
Public Health Trust Board of Trustees
October 30, 2024**

RESOLUTION NO. PHT 10/24 - 051

RESOLUTION SUPPORTING THE CONTINUED DESIGNATION OF THE RYDER TRAUMA CENTER AT JACKSON MEMORIAL HOSPITAL AS A LEVEL I TRAUMA CENTER AND VERIFIED BY THE AMERICAN COLLEGE OF SURGEONS; REAFFIRMING THE COMMITMENT OF THE BOARD OF TRUSTEES TO THE RYDER TRAUMA CENTER AND THE COMMITMENT OF THE PUBLIC HEALTH TRUST FINANCIAL, HUMAN AND PHYSICAL RESOURCES TO TREAT ALL TRAUMA PATIENTS REGARDLESS OF COLOR, CREED, SEX, NATIONALITY, PLACE OF RESIDENCE OR FINANCIAL CLASS; COMMITTING TO PARTICIPATE IN THE STATE REGIONAL TRAUMA SYSTEM AND THE LOCAL OR REGIONAL TRAUMA SYSTEM.

(Hamilton Clark, Senior Vice President, Hospital Operations, Jackson Health System)

WHEREAS, PURSUANT TO Chapter 25A of the Code of Miami-Dade County, the Public Health Trust of Miami-Dade County (the “ Public Health Trust”) governs, operates and maintains the Jackson Health System and Jackson Memorial Hospital and Ryder Trauma Center; and

WHEREAS, since 1992 Ryder Trauma Center has been a state designated Level I Trauma Center and has been dedicated to saving the lives of people with life threatening traumatic injuries; and

WHEREAS, Ryder Trauma Center is an adult and pediatric state designated Level I Trauma Center in Miami-Dade County and is the centerpiece of Miami-Dade County’s trauma care system; and

WHEREAS, Jackson Memorial Hospital and Ryder Trauma Center are seeking re-verification by the American College of Surgeons as a Level I Trauma Center; and

WHEREAS, this Board seeks to express its support of the Ryder Trauma Center’s continued verification as an American College of Surgeons Level I Trauma Center and of Ryder Trauma Center’s continued designation as a Level I Trauma Center by the Florida Department of Health; and

WHEREAS, additionally, this Board seeks to express its commitment to providing financial, human and physical resources of the Public Health Trust to treat all trauma patients regardless of color, creed, nationality, place of residence or financial class; and

Agenda Item 11.b
Public Health Trust Board of Trustees
October 30, 2024

-Page 2-

WHEREAS, this Board further commits to participate in the state regional trauma system and the local or regional trauma system, if one exists.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE PUBLIC HEALTH TRUST OF MIAMI-DADE, FLORIDA, that this Board hereby supports the continued designation of the Ryder Trauma Center at Jackson Memorial Hospital as a Level I Trauma Center and Ryder Trauma Center's re-verification by the American College of Surgeons. In addition, this Board reaffirms its commitment to the Ryder Trauma Center and its commitment of financial, human and physical resources of the Public Health Trust to treat all trauma patients regardless of color, creed, sex, and nationality, place of residence or financial class. This Board further commits to participate in the state regional trauma system and the local or regional trauma system, if one exists.

TO: Amadeo Lopez- Castro III, Chairman
and Members, Public Health Trust Board of Trustees

FROM: Rosa Costanzo
Senior Vice President, Strategic Sourcing and Supply Chain Management
& Chief Procurement Officer

DATE: October 30, 2024

RE: Purchasing Report

Recommendation

The following recommendations are made in accordance with the Trust's Procurement Regulation.

These items fully support our business operations and help the organization in its efforts to provide an excellent world class patient experience.

Scope

This report includes competitively solicited contract awards over \$5,000,000, waivers of formal competition over \$250,000 and other categories for Board approval as prescribed by the Procurement Regulation.

Fiscal Impact/Funding Source

The items included are part of the Trust's budget.

Track Record/Monitor

The Procurement Management Department along with the user departments and leadership support will track and monitor the responsibilities and obligations set forth in the contracts.

Background

The entire report has been vetted and assembled by the Procurement Management Department with the direct participation of the Director and staff, all subject to review by the Chief Procurement Officer, consultation with the Executive Staff and the President, and reviewed for legal sufficiency by the County Attorney's Office. Request is made for approval of the Purchasing Report, consisting of the following:

<u>Vendor</u>	<u>Amount</u>		<u>Chargeable</u>
1. Edwards LifeSciences, LLC:	\$1,283,400	For Three Years	Yes
2. Snowflake, Inc.:	\$1,145,000	For Three Years	No
3. ITW Food Equipment Group, LLC d/b/a Hobart Service:	\$1,576,815	For Three Years	No
4. Patient Funding Alternatives, LLC:	\$1,000,000	For Two Years	Yes
5. MedAssets Performance Management Solutions, Inc.:	\$1,093,734	For Four Years	No
6. Abbott Laboratories, Inc.:	\$5,218,846	For Nineteen Months	Yes
7. Alphatec Spine, Inc.:	\$270,792	For One Year	Yes

Procurement completed an orderly administrative process with each item to bring the best value (cost, quality and outcome) with each project.

RESOLUTION NO. PHT 10/2024 – 052

**RESOLUTION AUTHORIZING AND APPROVING AWARD OF
BIDS AND PROPOSALS, WAIVER OF BIDS, AND OTHER
PURCHASING ACTIONS FOR OCTOBER 2024, IN
ACCORDANCE WITH THE PUBLIC HEALTH TRUST'S
PROCUREMENT POLICY, RESOLUTION NO. PHT 11/2023-064**

*(Rosa Costanzo, Senior Vice President, Strategic Sourcing, Supply Chain
Management and Chief Procurement Officer, Jackson Health System)*

WHEREAS, bids and proposals were solicited, received and reviewed by staff; and

WHEREAS, the Purchasing and Facilities Subcommittee met October 30, 2024 and reviewed staff's recommendations as submitted under the PHT's Procurement Policy, Resolution No. PHT 11/2023-064; and

WHEREAS, the Purchasing and Facilities Subcommittee forwarded the Purchasing Report to the Fiscal Committee with a recommendation for approval for each item under the report, which is attached hereto and hereby incorporated by reference; and

WHEREAS, upon his written recommendation, the Chief Executive Officer (CEO) recommends that the Public Health Trust Board of Trustees (Board of Trustees) waive competitive bidding for items under the heading of "Bid Waiver" and "Waiver of Full and Competitive Bidding" in the respective Purchasing Report, finding such action to be in the best interests of the Public Health Trust; and

WHEREAS, the CEO and Fiscal Committee recommend various other purchasing actions, as indicated in the attached Purchasing Report.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE PUBLIC HEALTH TRUST OF MIAMI-DADE COUNTY, FLORIDA, that this Board hereby authorizes and approves the award of bids and proposals and all the purchasing actions as set forth in the attached Purchasing Report, under the Public Health Trust's Procurement Policy, Resolution No. PHT 11/2023-064; and finds it in the best interest of the Public Health Trust to waive competitive bidding for those items listed under the heading "Bid Waiver" and "Waiver of Full and competitive Bidding" in the respective report; and to take such action as is necessary and authorized to implement these awards and actions.

**PUBLIC HEALTH TRUST BOARD OF TRUSTEES
PURCHASING REPORT**

October 30, 2024

TO: PUBLIC HEALTH TRUST BOARD OF TRUSTEES

FROM: PROCUREMENT MANAGEMENT DEPARTMENT

The following recommendations are made in accordance with the Trust's "Procurement Policy" and its implementing "Procurement Regulation." This report includes competitively solicited contract awards over \$5,000,000, waivers of formal competition over \$250,000 and other categories for Board approval as prescribed by the Procurement Regulation. The entire report has been screened and assembled by the Procurement Management Department with the direct participation of the Directors and staff, all subject to review by the Chief Procurement Officer, consultation with the Executive Staff and the Chief Executive Officer, and reviewed for legal sufficiency by the County Attorney's Office.

SECTION I. AWARDS UNDER INVITATIONS TO BID (ITB's)

This section consists of awards under competitively solicited Invitations to Bid (ITB's) over \$5,000,000.

No items to report.

SECTION II. AWARDS UNDER REQUESTS FOR PROPOSALS (RFP's)

This section consists of awards under competitively solicited Requests for Proposals (RFP's) over \$5,000,000.

No items to report.

SECTION III. AWARDS UNDER THE COMPETITIVELY SOLICITED CONTRACTS OF OTHER PUBLIC PROCUREMENT ENTITIES

This section consists of awards over \$5,000,000 under competitively solicited ("ITB," "RFP" or equivalent) contracts of other public and nonprofit entities.

No items to report.

SECTION IV. AWARDS UNDER GROUP PURCHASING ORGANIZATION ("GPO") CONTRACTS

This section consists of awards over \$5,000,000 under Group Purchasing Organization ("GPO") contracts. GPOs are organizations that aggregate the purchasing volume of their members consisting of hospitals and other health care providers to leverage discounts with manufacturers, distributors and other vendors to realize administrative savings and efficiencies. The Trust's GPO is Vizient.

No items to report.

SECTION V. AWARDS UNDER A WAIVER OF FORMAL COMPETITION

This section consists of awards over \$250,000 without the formal solicitation of competitive bids or proposals. All award recommendations in this section have the approval of the President, are based on a finding that the waiver of competitive bidding is in the best interests of the Public Health Trust, and require a two-thirds affirmative vote of the Trustees present for approval.

A. Sole Source

Staff requests a waiver of formal competition for the contract items listed in this category because only one supplier exists for the required product/service.

No items to report

B. Physician's Preference

Staff requests a waiver of formal competition for the contract items listed in this category because a physician and a clinician have requested the particular item, without which the physician and clinician cannot successfully and safely render patient care.

No items to report.

C. Standardization

Items in this category have been established as the Trust standard.

No items to report.

D. Non-Competitive Cooperative Purchasing

This subsection consists of awards under the contracts of other public entities that were not competitively solicited.

No items to report.

E. Miscellaneous Bid Waiver

This subsection consists of awards not falling in the other categories of waiver of formal competition but where waiver is deemed to be in the best interests of the Trust.

1. (2431069-JR) The Perioperative Services Division, Jackson Memorial Hospital, is requesting approval to enter into an Agreement with Edwards LifeSciences for a period of three (3) years to procure its surgical heart product the RESILIA Tissue Valve portfolio used at Jackson Memorial Hospital for open-heart procedures (ongoing purchase).

Edwards LifeSciences, LLC:

This Request for Funding:

**\$1,283,400
(For Three Years)**

Background

The RESILIA Tissue Surgical Valve portfolio has the backing of a strong, growing base of clinical evidence attesting to its hemodynamic performance and durability. This tissue treatment has been applied to INSPIRIS, KONECT aortic valve conduit, and MITRIS valves. A key challenge with pericardial tissues is structural valve deterioration (SVD), which is due to calcium buildup. RESILIA tissue is a bovine pericardial tissue treated with a novel preservation technology that effectively eliminates free aldehydes, a key factor in tissue calcification, while protecting and preserving tissue. RESILIA tissue is the result of a development program of over 10 years, involving more than 100 evaluations of safety and efficacy.

The RESILIA Tissue Valve Portfolio is transformed to resist calcification more effectively and allow for dry storage. This calcium-blocking technology consists of a stable-capping that permanently blocks free aldehydes to prevent calcium binding within the tissue. Its Glycerolization mitigates calcium-attracting glutaraldehyde residuals and enables dry tissue storage for increased ease of use. In essence, the RESILIA offers enhanced anti-calcification technology that can potentially allow the valve to last longer than conventional Bioprosthetic valves. Biosprosthetic heart valves (BHVs) are usually composed of either porcine aortic valves mounted on sewing rings or tri-leaflet valves fashioned out of bovine pericardium. However, the residual free aldehyde groups in these tissues can cause calcification and cytotoxicity (the ability of a substance to damage or kill cells). For patients, the RESILIA Tissue portfolio offers a life with the potential to avoid future open-heart surgery as well as gives surgeons the freedom to offer a resilient tissue alternative.

The INSPIRIS RESILIA, intended to be an alternative to mechanical valves, is a stented aortic valve made from bovine pericardial tissue. The pericardium is a fibrous sac that encloses the heart and the great vessels. The INSPIRIS RESILIA aortic valve incorporates features of the Edwards PERIMOUNT and Magna Ease aortic valve platforms to enhance ease of implant. This valve delivers on the promise of better ongoing patient quality of life, eliminating the reduction of participation in active lifestyles typically seen with a mechanical valve. Advantages include: freedom to live a more active lifestyle, fewer dietary restrictions; no need for long-term anticoagulants; and, no clicking sound with every heartbeat

The KONECT RESILIA Aortic Valve Conduit (AVC) is a pre-assembled, ready-to-use implant for replacing the aortic heart valve and ascending aorta. It comprises several components, including: RESILIA tissue. This tissue is designed to improve valve durability and includes a stable-capping anti-calcification process. Some advantages of the KONECT RESILIA AVC include: Time-saving - it can save time in the operating room; Larger sewing ring - the sewing ring is larger and more conformable than most tissue valves; Easy to implant and extract - the KONECT RESILIA AVC can be easily implanted and extracted, and the valve can be surgically removed without damaging the conduit or coronary ostia (which allows blood to flow into the heart from a large surrounding sinus or pericardium).

The MITRIS RESILIA valve, used for the replacement of native or prosthetic heart valves, is designed to handle the pressure of the mitral position. It also features RESILIA tissue and is treated with a special integrity preservation technology that effectively eliminates free aldehydes while protecting and preserving tissue. Mitral regurgitation is one of the most common heart valve diseases, predominantly affecting patients over 65 years of age. In mitral regurgitation, the valve between the heart chambers does not close fully, causing blood to leak backward across the valve. In severe cases, not enough blood moves through the heart or to the rest of the body. If left untreated, moderate to severe mitral regurgitation is associated with excess morbidity and mortality. In addition, the median age for mitral valve replacement patients is relatively young, at 66 years. Combined with an increasing life expectancy, it is more important than ever that there is a tissue valve built to last for patients in the long-term. Therefore, the MITRIS RESILIA Valve is a very important component of the Edward LifeSciences RESILIA portfolio.

In providing a statement in line with the Trust's environmentally responsible initiatives, Edwards Lifesciences has offered the following: "At Edwards, we recognize that our ability to help patients depends on a healthy society, and we strive to be a good corporate citizen for all of our stakeholders. Both our manufacturing and non-manufacturing operations are included within the scope of our greenhouse gas (GHG) reporting. Edwards has established the following targets in line with our company Credo: Through our actions, we will become trusted partners with customers, colleagues and patients – creating a community unified in its mission to improve the quality of life around the world. Our results will benefit customers, patients, employees, and shareholders:

- Reduce absolute scope 1 and 2 greenhouse gas emissions 42% from a 2021 base year and achieve carbon neutrality by 2030.
- Reduce scope 3 greenhouse gas emissions 51.6% per USD of value added by 2030.
- Reduce waste generation intensity 20% from a 2021 base year, by 2025.
- Reduce water withdrawal intensity 10% from a 2021 base year, by 2025.
- Achieve ISO 14001 and 45001 certifications at all manufacturing plants by 2025"

Recommendation

The Perioperative Services Division has determined it would be in the Trust's best interest to award the contract to Edwards LifeSciences, LLC for a period of three (3) years to procure its RESILIA Tissue Valve Portfolio. **Through Negotiations, a total cost avoidance of \$114,834 has been provided to the Trust based on usage for the three-year term.**

In accordance with JHS' Contractor Due Diligence review, Edwards Lifesciences, LLC has provided a Sworn/Notarized Statement to the Trust's Procurement Management Department that:

(1) Lawsuits have been filed against the company within the five (5) years prior to submittal of a bid or proposal to the Trust;

- o VT Shareholder Representative, LLC in its capacity as the shareholders Representative for the former participating holders of Valtech Cardio LTD. V. Edwards LifeSciences Corporations and Valtech Cardio Ltd., filed in the Court of Chancery of the State of Delaware on March 17, 2023.

(2) the company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; and, (3) the company has not been debarred nor has the firm received a formal notice of non-compliance or non-performance in the five (5) years prior to proposal submittal to the Trust.

This procurement has been reviewed for SBE participation. The specialized coronary products purchased under this agreement are provided from the original equipment manufacturer, Edwards Lifesciences Corp. The products are shipped directly to Jackson and the vendor does not subcontract services related to this purchase. The opportunity to include an SBE partner is not available for this product purchase. Edwards Lifesciences Corp. is aware of Jackson's SBE program and the expectation of vendor partners to advance that commitment.

The contract was reviewed and approved by Risk management as to insurance and liability and by the County's Attorney's Office for legal sufficiency.

The contract can be terminated for convenience with a thirty (30)-day notice and includes UAP and OIG fees. The UAP and OIG fees are provided as deductions on the invoices.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations have been signed by Alejandro Cid, Director Business Operations Periop., Matthew Parker, Business Support Specialist, Ruth Durosier, Nurse Manager, JMH, and, by Tomas Rigotti, Therapy Specialist Manager, Edward Lifesciences, LLC, with no reported disclosures (**P. Plair**).

2. (2533298-GP) Jackson Health System's Information Technology ("IT") Division requests approval for a three (3)-year agreement with Snowflake, Inc. for integrated and cloud-based data warehouse services that will serve as the new system-wide data platform. It will be used to support daily clinical and financial operations (new purchase).

Snowflake, Inc.:

This Request for Funding:

**\$1,145,000
(For Three Years)**

Background

Snowflake is a cloud-based data platform that helps enterprise companies, including healthcare organizations, to manage large or complex data sets more effectively and efficiently, thus improving patient outcomes and streamlining operations. It is a single platform for data warehousing that allows use of powerful cloud processing with and through its integrated services. Snowflake's platform enables improved performance, enables direct integration with other tools that Jackson already uses like Tableau (a business intelligence data visualization tool (BI) to help users interact with data through dashboards, etc.), and enables data storage, processing, and analytical solutions that are much easier to use, more flexible and faster than the conventional on premise data warehouse setup. It also enables the IT Division to leverage artificial intelligence (AI) and machine learning (ML) capabilities, enabling more advanced statistical analysis of Jackson's data with the goal of supporting clinical and financial operations. Additionally, the Snowflake platform enables role-based security and ease of accessibility for self-service business intelligence (BI), which allows authorized users to access and analyze Jackson's data without requiring intensive technical assistance.

Snowflake is the sole distributor of its data platform. The IT Division has also reviewed if the unique features of Snowflake (cloud agnostic, server-less compute, data clones, data level security, snapshot backups, etc.) exist with other vendors. While they found some features are available with other vendors, they did not find another vendor with all of Snowflake's features. Additionally, they learned through market research that other vendors focus their products differently and that Snowflake was the most tool agnostic platform to allow for maximum flexibility. Snowflake's additional advantages include increased adaptability to different tools, making it easier for the IT Division and Jackson's authorized users to master new tools; being able to find the best solution by not being partial to a particular technology and, being able to work with multiple tools makes a designer more resilient. to rapid changes in technology.

The IT Division has explained that, if this technology were not available, Jackson would need to continue using a technologically aging 13-year-old, on premise data warehouse. The current environment is long-standing and has shown challenges in keeping up with the more recent demands of Jackson Health System's enhanced and expanding operations. Additionally, the Trust relies on reporting servers to manage any self-service capabilities. This old strategy limits what data can be available to run a report and considerably slows down performance capabilities, especially when large data sets are being utilized for one or more reports. The Trust's data science capabilities would also be inefficient and suboptimal, as the proper infrastructure to enable rapid data modeling or accessibility to data without manual efforts currently does not exist due to the technical limitations mentioned above. Snowflake will combine data from multiple sources to create a holistic view of Jackson's data, including valuable insights about our patients, employees, and visitors. Snowflake's advantage will help Jackson's teams to more efficiently personalize care. Snowflake will also help Jackson's leaders and operators to gain insights from our rich data to improve patient outcomes and deliver quality patient experiences.

Recommendation

The Information Technology Division has determined it would be in the best interest of the Trust to secure the required services from Snowflake for a period of three (3) years.

This procurement has been thoroughly reviewed for potential SBE participation. The cloud based data warehouse and data services provided under this agreement will be performed by Snowflake employees. The vendor does not subcontract any of its services. The opportunity to include an SBE partner is not available for this service activity. Snowflake is aware of Jackson's SBE program and the expectation of vendor partners to advance that commitment.

In accordance with JHS' Contractor Due Diligence review, Snowflake, Inc. has provided a Sworn/Notarized Statement to the Trust's Procurement Management Department that: (1) no lawsuits have been filed against the company within the five (5) years prior to submittal of a bid or proposal to the Trust; (2) the company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; and, (3) the company has not been debarred nor has the firm received a formal notice of non-compliance or non-performance in the five (5) years prior to proposal submittal to the Trust.

In explaining the benefits, to the Trust, of this procurement, the JHS Information Technology Division has stated that similar solutions in this space are cloud based, and tied to a single cloud provider. Snowflake is the only cloud agnostic vendor that allows for deployment in multiple clouds with this kind of high availability. Snowflake’s cross cloud account replication feature enables business continuity and disaster recovery planning. Such a feature helps maintain high availability and protects against outages experienced at any single cloud provider. Snowflake supports multiple types of deployment models, as well as a single account deployment. Its virtual warehousing can also perform parallel processing on large amounts of data. It automatically falls over to a different availability zone if an availability zone becomes unavailable. This ensures that applications can continue to have access to data if an availability zone is down. This vendor automatically backs up data as instructed by a customer (like Jackson). As such, it is considered the leading multi-cloud data warehouse option currently on the market. Cloud agnosticism allows the ability of cloud-based systems and applications to move between cloud platforms without commitment to any one provider’s infrastructure. Additionally, Snowflake’s application is cloud-native; and, therefore, can be scaled in or out quickly for meeting demands. It can also be updated often without impacting service delivery and availability. It provides unique features, such as cloning data, that does not impact storage costs. Snowflake also has a robust security feature directly built into the data model. This feature mimics the current JHS security plan, making it a great fit.

In providing a statement in line with the Trust’s Environmental Sustainability initiatives, the vendor has advised of the following practices currently in place:

- Adopting sustainable real estate practices such as targeting energy-efficient workspaces and office locations accessible by public transportation.
- Minimizing waste through increased recycling, single-use plastic reduction efforts, organic waste disposal and composting programs, and food waste reduction initiatives.
- Striving to use sustainable products for our office-space maintenance.
- Beginning to create the infrastructure needed to measure our carbon footprint, which may involve partnering with third parties such as our landlords and building managers.

Additionally, Snowflake has stated: “Snowflake strives to promote sustainability in our operations and products. We value the diversity of our workforce and are committed to doing what’s best for our customers, partners, and the community. We work to minimize our own environmental footprint, but for Snowflake, that’s not enough. Snowflake’s core architecture processes data more efficiently than legacy solutions, which helps reduce the carbon impact. The Data Cloud offers the technology, data, and global network so Snowflake customers can unify, analyze, and share data to reveal insights not possible before. We are committed to reducing our impact on our planet without compromising future generations’ needs. To minimize our environmental footprint, we use eco-friendly, recycled, and organic materials in most of our merchandise, all of our inks are soy-based, and we ship with sustainable packaging.”

ECRI reported that “while other vendors do offer similar services for data warehousing and analytics, JHS Information Technology has identified that the solution provides a single cloud solution that is sought after by the Trust. As such, ECRI is unable to provide a savings recommendation at this time”.

The contract can be terminated for Cause with a thirty (30) day written notice. The UAP has been reduced from the original quoted price and OIG fees are provided as deductions on the invoices.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations signed by George Rosello, AVP Digital Transformation, Applications Integration, Jackson Health System; and, by Anthony Eisen, Director Deal Desk, Snowflake, Inc., with no reported disclosures **(M. Garcia)**.

3. (BW-22-22684-SW) The Engineering Services Division (‘Engineering Services’), Jackson Memorial Hospital (“JMH”), requests approval to enter into a contract with ITW Food Equipment Group (FEG), LLC d/b/a Hobart Service (“Hobart”) for a period of three years for the continuation of full-service kitchen maintenance services of the food preparation and refrigeration equipment for several JHS facilities (ongoing purchase).

ITW Food Equipment Group LLC/dba Hobart Service:

JMH Main Campus	\$573,052
JM Long-Term Care Center	\$139,730
JM Perdue Medical Center	\$123,886
Jackson North Medical Center (JNMC)	\$244,753
Jackson South Medical Center (JSMC)	\$205,442

Jackson West Medical Center (JWMC)

\$289,952

This Request for Funding:

**\$1,576,815
(For Three Years)**

Background

On September 28, 2021, via Resolution No. PHT 09/2021-043, the PHT Board approved a three-year full-kitchen maintenance bid waiver service agreement award to ITW Hobart Corporation, the manufacturer of the kitchen equipment at multiple JMH campuses from September 1, 2024, through August 31, 2027.

To continue this service, the Engineering Services Division, in collaboration with the Procurement Management Department (PMD), is submitting this request on behalf of multiple JMH locations to award a full-kitchen bid-waiver maintenance service agreement to ITW Hobart Corporation for the period September 1, 2024, through August 31, 2027. This service is critical to the continued provision of food and nutritional services to the patients, visitors and employees of JMH.

The PMD conducted market research on full kitchen maintenance service agreements in the public and private sectors to determine the best procurement method that would deliver maximum financial benefits and add value to JMH food services, at the best possible total cost. After considering the various options for procurement of these services, Engineering Services and PMD determined that the most beneficial and practicable avenue would be via a bid waiver award to Hobart. More than 65% of the equipment utilized in the various JMH locations is manufactured by Hobart, who also provides the maintenance. Equipment such as rack ovens, dishwashers, machines, and food mixers, which are heavily utilized on a daily basis, have been purchased directly from Hobart or sold through their sales representative. For this specific group of equipment, other companies are not authorized to provide service and, therefore, would not be able to acquire technical support from Hobart. The unauthorized repair of this equipment would result in the void of any warranties on the equipment. In addition, Hobart is the authorized warranty service provider for the remaining percentage of equipment located at JMH.

If PMD were to competitively solicit kitchen equipment maintenance services, no vendors, other than Hobart, would be able to supply authorized factory replacement parts, provide Hobart factory-trained technicians, or offer Hobart warranty services. This is evidenced by a sole supplier letter provided by Hobart Services. If PMD sought to procure Hobart parts through another vendor, the hospital would be subject to additional mark-ups, low quality aftermarket components and non-warranty.

In stating the benefits, to the Trust, of this procurement, the Engineering Services Division has explained that a contract award to Hobart for servicing the equipment would include the following benefits: replacement parts included at no additional cost; no labor or travel charges; provision of manufacturer-trained technicians; local and national support staff; and, immediate access to Hobart's parts inventory enabling quick response time and minimizing equipment downtime. Also, OSHA Guidelines requirement that all safety devices on ovens be inspected by a qualified representative of the oven manufacturer once a year will be met, since Hobart provides qualified technicians to meet OSHA regulation standard 29CFR 1910.263(1)(9)(ii).

Hobart was established in 1897 and is a subsidiary of the Illinois Tool Works (ITW) Food Equipment Group. ITW is one of the world's leading diversified manufacturers of specialized industrial equipment, consumables and provider of related services. Hobart has numerous facilities located throughout the United States and, as a result of its relationship to ITW, Hobart has strong financial support and the capacity to provide the quality of services required for an entity the size of JMH. Hobart's Miami office has 44 employees of which 95% are African-American or Hispanic. As such, Hobart provides immediate positive financial impact in the local diverse community that JHS serves.

In providing a statement in line with the Trust's environmentally responsible initiatives, Hobart has offered that it is the recipient of the 2024 ENERGY STAR Partner of the Year Sustained Excellence award from the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy (DOE). The Sustained Excellence award is the highest honor among ENERGY STAR awards. This year marks the 17th consecutive year ITW Food Equipment Group has been recognized as an ENERGY STAR Partner of the Year and 15th consecutive year receiving the Sustained Excellence award. Hobart is committed to manufacturing efficient commercial kitchen equipment for foodservice and food retail professionals that decreases impact on the environment. In 2023, ITW Food Equipment Group offered 374 ENERGY STAR-certified products as part of its continued focus on developing next-generation, energy-efficient equipment and making efficiency improvements at its manufacturing facilities.

This procurement has been thoroughly reviewed for potential SBE participation. The foodservice equipment maintenance services provided under this agreement will be performed by Hobart employees. The vendor does not subcontract any of its services. The opportunity to include an SBE partner is not available for this service activity. Hobart is aware of Jackson's SBE program and the expectation of vendor partners to advance that commitment.

Recommendation

The Engineering Services Division, in collaboration with Procurement Management, has determined that it is in the Trust's best interest to continue utilizing Hobart Services for full kitchen maintenance services. By awarding a one-time three (3) year contract, versus three one (1)-year contracts over a period of three years, JMH will save \$74,616 for the three-year term. This amount is based on a 10% - 15% overall savings, with pricing locked in for the 3-year period, versus yearly renewal increases averaging 5% - 12% for each JMH location, respectively.

The requested amount per facility are as follows:

- JMH Main Campus: \$573,052.86. Estimated at \$15,918.14/month for the period of coverage from September 1, 2024 – August 31, 2027
- JMH Long Term Care Center: \$139,730. Estimated \$3,881.37/month for the period of coverage from September 1, 2024 - August 31, 2027.
- JNMC: \$244,753. Estimated \$6,798.69/month for the period of coverage from September 1, 2024 - August 31, 2027.
- Perdue Medical Center: \$123,886. Estimated \$3,441.27/month for the period of coverage from September 1, 2024 - August 31, 2027.
- JSMC: \$205,442. Estimated \$5,706.72/month for the period of coverage from September 1, 2024 - August 31, 2027.
- JWMC: \$289,952. Estimated \$9,353.29/month for the period of coverage from February 1, 2025 - August 31, 2027.

Under the proposed bid waiver service agreement, Hobart will provide replacement parts, except for structural or expendable items such as curtains and blades, at no additional charge to the Trust. Vendor will provide full preventive maintenance service for kitchen and refrigeration equipment including ice machines cleanings and water filter replacements, required upgrades and emergency repairs. There will be no additional charge for parts other than expendable items, such as industrial dishwasher curtains and slicer blades. There will be no labor or travel charges Monday to Friday, 8:00 a.m. to 5:00 p.m. for covered equipment, yielding a cost avoidance of \$158 per trip. This reduction will provide additional cost savings for future needs up to three (3) years. Service labor rates (Mon – Fri, 8:00 am–5:00p.m.) for equipment not covered will be at a rate of \$158 per hour. Overtime rate for equipment not covered is \$194 per hour.

In providing an evaluation of the vendor's performance during the current contract year, the Maintenance Superintendent has reported the following:

- Vendor meets standard for deliverables for contract requirements
- Vendor meets standard for maintenance on equipment including maintaining logs
- Vendor meets standard in response to emergency situations
- Vendor meets standard in responsiveness to safety issues and safety standards

In accordance with our Contractor Due Diligence Review, Hobart Corporation has provided Sworn/Notarized Statements to the Trust's Procurement Management Department that: (1) no lawsuits have been filed against the company within the five (5) years prior to submittal of a bid or proposal to the Trust; (2) the company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; (3) the company has not been debarred nor has the firm received formal notices of non-compliance or non-performance in the five (5) years prior to proposal submittals to the Trust.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations signed by Oscar Betancourt, Chief Operating Officer, JMH; Justin Lavian, Administrator, Long Term Care; Brenda Molinari, Administrator, Perdue; Loyman Marin, Chief Operating Officer, JNMC; Lourdes Marrero-Camps Chief Operating Officer, JSMC; Aracel Armas, Director of Engineering, JWMC; and John Davalos, Sales Manager, Hobart Corporation, with no reported disclosures (**O. Betancourt**).

4. (1983718-LG) Jackson Health System's Holtz Children's Hospital Administration is requesting approval to enter into the Professional Services Agreement with Patient Funding Alternatives, LLC ("PFA") in order to utilize PFA's Patient Helper Program® (new purchase).

Patient Funding Alternatives, LLC:

This Request for Funding:

**\$1,000,000
(For Two Years)**

Background

PFA will provide a service to identify, track, and help patients access healthcare funding options, and enhance JHS' revenue process. By working with this vendor, JHS estimates receiving up to four times the revenue it would normally have, while helping patients to afford the cost of their healthcare needs. Under the agreement, PFA will identify Trust patients, with very large claims, who are currently enrolled in the State of Florida Medicaid program. This specific subset of patients declined to enroll in their employers' commercial plan, because of high premium costs.

PFA will contact prospective patients and assist them in submitting an application on their behalf and filing it directly with the State of Florida FLHIPP program. The Florida Health Insurance Premium Payment Program ("FLHIPP"), sponsored by Florida's Agency for Health Care Administration (AHCA), pays premiums on behalf of Medicaid beneficiaries to enable these patients' access to the commercial plan. FLHIPP will decide whether the patient meets the "cost effectiveness test" and, if the patient meets this standard, FLHIPP will pay the commercial insurance premiums on behalf of the patient. PFA is the only company that currently offers this service.

By using PFA's proprietary technological systems and advocacy initiatives (the PFA Patient Helper Program®), PFA will manage the implementation of FLHIPP for the Trust, which includes:

- i) Identifying and requesting necessary patient data from the Trust.
- ii) Developing a data transmittal process.
- iii) Analyzing the data requested and received from the Trust and identifying, prioritizing and selecting the Trust's patients for whom the PFA Patient Helper Program® is appropriate.
- iv) Providing personnel who will engage with the Trust's patients and work with the state governing agency responsible for managing the HIPP Program.

The Trust will pay PFA 25% of the incremental net revenue increase of the difference between what the commercial plan pays and what Medicaid pays. The State Medicaid program will then receive reimbursement for the original payment made on the claim. PFA is conservatively estimating a net patient revenue ("NPR") increase of approximately \$4 million. As such, based on the estimate, the Trust will pay PFA \$1 million (or 25% of the NPR increase) for their efforts.

Recommendation

Holtz Children's Hospital Administration has determined that it would be in the best interest of the Trust to enter into the Agreement with PFA for the provision of the PFA Patient Helper Program®.

This procurement has been reviewed for SBE participation. Services are performed by Patient Funding Alternatives' full-time employees and data is managed through a proprietary software. The opportunity to include an SBE partner is not available for this purchase. Patient Funding Alternatives' is aware of Jackson's SBE program and the expectation of vendor partners to advance that commitment.

The agreement can be terminated by either party for convenience upon sixty (60) calendar days' prior written notice following the first year of the agreement and includes the OIG and UAP fees. The OIG and UAP fees are provided as deductions on the invoices.

In accordance with our Contractor Due Diligence review, Patient Funding Alternatives, LLC has provided a Sworn/Notarized Statement to the Trust's Procurement Management Department that: (1) no lawsuits have been filed against the vendor within the five (5) years based on a breach of contract, prior to submittal of a bid or proposal to the Trust; (2) the company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; and (3) the company has not been debarred nor has the firm received a formal notice of non-compliance or non-performance in the five (5) years prior to proposal submittal to the Trust.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations have been signed by Pedro Alfaro, CFO, Holtz Children's Hospital, Jackson Health System, and Ryan Sheft, VP of Strategy of PFA, with no reported disclosures (**J. Ruggiero**).

5. **(2596473-MRL)** The Executive Office is requesting a new statement of work with Vizient, Inc., through the Master Agreement in place with MedAssets Performance Management Solutions, Inc., for the implementation of Vizient's Operational Database (new purchase).

MedAssets Performance Management Solutions, Inc. (Vizient, Inc.):

This Request for Funding:

**\$1,093,734
(For Four Years)**

Background

The Vizient® Operational Data Base (ODB) provides hospitals and provider practices with transparent, department-level comparative insights and financial attributes to identify cost savings opportunities in order to improve a health system's bottom line. The ODB helps health care organizations drive performance by assessing and benchmarking current, as well as historical performance, identifying opportunities for operational improvement. It allows for peer engagement to leverage experience and best practices. With key performance metrics and operational characteristics at the department level, the ODB allows hospitals to pinpoint areas of focus and develop corrective action plans.

With the industry's largest comparative database, the ODB compares and measures operational performance among similar institutions, including academic medical centers, acute care facilities, community hospitals and critical access hospitals. There are over 700 other subscribing healthcare facilities, including 80 plus academic medical centers, which is the largest in the industry. The tool allows for comparative operational reporting for budgeting and cost reductions by:

- Pinpointing variances in labor and supply expense performance and transparently benchmarks against hospitals of JHS' choosing;
- Identifies insights to support budget projections and staffing requirements, and prioritizes performance improvement and cost optimization initiatives; and
- Connects to networking opportunities among other healthcare subscribers to facilitate dialogue and best practice sharing.

The ODB is unique in that it has the ability to integrate insights across data sets from other Vizient tools currently in implemented and utilized at JHS. This includes, but is not limited to, the Clinical Database and Procedural Analytics Tool.

Recommendation

The Executive Office has determined that it is in the Trust's best interest to enter into this statement of work for the implementation and utilization of Vizient's ODB over a four-year period at a contract value of \$1,093,734, excluding expenses.

The fees for the ODB include an implementation fee of \$72,100 and annual service fees of \$219,778, which may increase at a cap of 3% each annual period. In addition, expenses may be incurred with the prior approval of the Trust and shall be billed in accordance with the limitations set forth in Florida Statutes. Through negotiations by the Procurement Management Department, the annual fees have been reduced from \$244,198 to \$219,778 for the initial year of the agreement. This represents a savings of \$102,522 in service fees over the four-year term.

Jackson's Small Business Program reviewed this procurement for SBE participation. The Operational Database solution and its services included under this engagement is proprietary to Vizient. The opportunity to include an SBE partner is not applicable. Vizient is aware of Jackson's SBE program and the expectation of vendor partners to advance that commitment.

This contract can be terminated for convenience with written notice to Vizient and includes UAP and OIG provisions. The UAP fee is provided as a deduction on the invoices.

The Master Agreement has been reviewed and approved by Risk Management as to insurance and liability and by the County Attorney's Office for legal sufficiency.

A Bid Waiver Justification has been provided and Conflict of Interest forms have been executed by Mark Knight, EVP & CFO; Tony Gomez, SVP Operations; Adriana Herrera, VP of Finance, Jackson Health System; and Jay Jacobs, Principle Data and Digital Sales, Vizient, Inc., with no reported disclosures (**M. Knight**).

SECTION VI. OPTIONS-TO-RENEW AND CONTRACT MODIFICATIONS FOR CONTRACTS THAT WERE COMPETITIVELY SOLICITED

This section refers to existing contracts that were competitively bid ("ITB", "RFP", "GPO" or "Piggyback") at their origin and consists of either (a) the exercise of established options to renew or (b) the execution of contract modifications for which the Procurement Policy requires prior Board approval.

No items to report.

SECTION VII. OPTIONS-TO-RENEW AND CONTRACT MODIFICATIONS FOR CONTRACTS THAT WERE AWARDED UNDER A WAIVER OF FORMAL COMPETITION

This section refers to existing contracts that were not competitively bid at their origin and consists of either (a) the exercise of established options-to renew or (b) the execution of contract modifications for which the Procurement Policy requires prior Board approval. All contracts in this section are renewals not previously authorized by the Board have the written approval of the President, are based on a finding that the waiver of full and competitive bidding is in the best interest of the Public Health Trust, and require a two-thirds affirmative vote of the Trustees present for approval.

6. (2437854, 2426677, 2559517-JM) The Neurosurgery Services Departments, Jackson Memorial Hospital, Jackson South Medical Center, and Jackson West Medical Center request approval to increase maximum contract value of the existing Physician Preference Agreement with Abbott Laboratories, Inc. for the continued provision of its Cardiac Rhythm Management (CRM) AVEIR™ VR Wireless Leadless Pacemaker Device and related accessories, necessitated by increased utilization and addition of products (ongoing purchase).

Abbott Laboratories, Inc.:

This Request for Funding:

\$5,218,846

(For Nineteen Months)

Background

On April 5, 2023, the Trust entered into a Product Purchase Agreement BW 22-21336-JM with Abbott Laboratories for the provision of its Cardiac Rhythm Management (CRM) AVEIR™ VR Wireless Leadless Pacemaker Device and related accessories, in the amount of \$1,590,600, approved under PHT Resolution 03/2023-014, for a period of three (3) years through April 4, 2026 with two (2) optional renewal years (OTRs) of one (1) year each.

In May 2024, as part of the J35 CRM initiative, Contract Modification no. 1, was executed under CPO delegated authority replacing the original Exhibit A “price file” to reflect lower prices across all items, as a result of a negotiated 90% dual share commitment. Through this modification, a \$200,000 cost saving was achieved plus a 5.5% rebate. This request is for approval of additional funding to the contract to support the spend through contract term ending April 4, 2026.

Neurostimulator therapies from Abbott allow people living with chronic pain and movement disorders to move easier and with less pain. Neurostimulator is a medication-free technology that can help chronic pain patients get back to living in a normal way. It also can combat the symptoms of movement disorders for those living with Parkinson's disease or essential tremor, so daily tasks are not as difficult.

In providing a statement on the benefits, to the Trust, of this procurement, the Cardiovascular Services Department has offered that the Infinity DBS System is a unique system in the market with a directional lead that can steer electrical current to minimize side effects and improve outcomes. It is intended to reduce the rigidity, tremor, and dyskinesia associated with Parkinson's and Essential Tremor by delivering an electrical current to the brain. If the product were not available, the hospitals would have to rely on other systems, which, unlike Abbott's, do not provide directional leads. In addition, the Spinal Stimulator is used for permanent pain relief in patients with chronic pain, specifically those with chronic neuropathic pain for over three months and who have tried and failed conventional treatment options such as medications, injections, and spine surgery. The stimulator is attached to leads implanted by physicians to target the nerves sending the pain signal, thereby reducing that signal. These devices are commonly used to significantly reduce patients' pain, improve their quality of life, and increase their physical activity. If the product were not available, the departments would have to refer their procedures to be completed at other medical center, such as UM, for SCS implants. Although there are other vendors for the same product, the requesting physician is accustomed to this particular vendor for all spinal cord stimulation (SCS) cases.

In providing a statement in line with the Trust's Environmentally Sustainable initiatives, Abbott Laboratories, Inc. has offered that its greatest opportunities to conserve energy and reduce greenhouse gas emissions under the company's direct control are improving energy efficiency within its facilities and supply chain, increasing the use of renewable or low carbon energy sources, and improving the efficiency of vehicles owned or leased by Abbott. Vendor understands that conserving energy used to discover, manufacture, and transport its products provides best opportunity to contribute to a solution. As a global healthcare company, Abbott is committed to making a positive difference, using energy responsibly and, therefore, addressing climate change in various ways. For example, finding innovative, progressive approaches to reducing its impact through manufacturing, and reducing indirect impacts across the value chain. In addition, Abbott has stated that it believes carefully-crafted public policies that enhance competitiveness and sustainable development help guide future energy transitions.

Recommendation

In light of the foregoing, the Neurosurgery Services Departments, Jackson Memorial Hospital, Jackson South Medical Center, and Jackson West Medical Center have determined that it is in the Trust's best interest to increase the maximum contract value of the contract, with Abbott Laboratories, Inc., for the continued provision of its Cardiac Rhythm Management (CRM) AVEIR™ VR Wireless Leadless Pacemaker Device and related accessories.

ECRI has reported that pricing provided by this vendor is better than average for JHS' spend.

This procurement has been reviewed for SBE participation. The cardiac devices products purchased under this agreement are provided from the original equipment manufacturer, Abbott. The products are shipped directly to Jackson and the vendor does not subcontract services related to this purchase. The opportunity to include an SBE partner is not available for this product purchase. Abbott is aware of Jackson's SBE program and the expectation of vendor partners to advance that commitment.

The underlying contract was approved by the County Attorney's Office for legal sufficiency and by Risk Management as to Indemnification and Insurance.

The underlying contract can be terminated for convenience with a thirty (30)-day written notice and includes UAP and OIG fees. The UAP and OIG fees are provided as deductions on the invoices.

In accordance with our Contractor Due Diligence review, Abbott Laboratories, Inc. has provided a Sworn/Notarized Statement to the Trust's Procurement Management Department that: (1) no lawsuits have been filed against the company within the five (5) years prior to submittal of a bid or proposal to the Trust; (2) the company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; and, (3) the company has not been debarred nor has the firm received a formal notice of non-compliance or non-performance in the five (5) years prior to proposal submittal to the Trust.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations signed by George Benelli, Director Cardiovascular and Imaging, Jackson South Medical Center; Lourdes Marrero Camps, VP Jackson South Medical Center; Victor Gomez, CFO Jackson South Medical Center; Jorge Areces, Business Manager, Jackson Memorial Hospital; Wide Saget, Nurse Manager, Cath Lab, Jackson Memorial Hospital; Chaitra Mohan, MD, Cardiovascular Disease Physician, Jackson Memorial Hospital; Oscar Betancourt, VP Jackson Memorial Hospital; Patricia Plair, CFO Jackson Memorial Hospital; Oscar Milian, Imaging Director, Jackson West Medical Center; Vivian Barreto, VP Jackson West Medical Center; Alberto Joseph Aboud, CFO Jackson West Medical Center; Dr. Ivan Mendoza, Chief of Cardiology, Jackson Health System; Kaitlyn Hartley, Pricing Manager, Abbott Laboratories, Inc., and Julie Taylor, Manager Pricing, Abbott Vascular, Inc., with no reported disclosures (**G. Victor, P. Plair, A. Aboud**).

7. **(2582512, 2443005-JM)** The Perioperative Services Departments, at Jackson Memorial Hospital and Jackson North Medical Center, requests approval to exercise the first option to renew (OTR) the Physician Preference Agreement with Alphatec Spine, Inc. ("ATEC") to continue the provision of its FDA-approved spinal implants and related consumables. (ongoing purchase).

Alphatec Spine, Inc. ("ATEC"):

Previously Approved Funding:	\$227,782
This Request for Funding:	\$270,792 (For One Year)
Total Request for Funding:	\$498,574

Background

In September 2021, a non-competitive agreement was awarded to Alphatec Spine, Inc. (ATEC) for \$227,781.50, under CPO delegated authority, for a three-year period with two options to renew of one year each, for the provision of spine implants and related consumables. This request for \$270,792 will exercise the first renewal option extending the contract through September 2025.

ATEC is a medical technology company that is focused on designing, developing, and advancing technology for improved surgical treatment of spinal disorders. The company designs, develops, and advances surgical innovations for the treatment of thoracic and lumbar spinal disorders. ATEC has a broad product portfolio capable of addressing the majority of the market for fusion spinal disorders; These innovations include access systems, interbody implants, fixation plates, screws and rods. There are other competitive vendors for

this product line. Alphatec provides the inventory for the majority of the hospitals' Neurology cases performed, without delays in service, and the vendor is able to meet the hospitals' service-line needs. Additionally, their portfolio supplements backorder products from other manufacturers, as needed.

Recommendation

The Perioperative Services Departments, at Jackson Memorial Hospital and Jackson North Medical Center have determined that it is in the Trust's best interest to exercise the first OTR, provided in the agreement with Alphatec Spine, Inc., to continue the provision of its FDA-approved spinal implants and related consumables. Spinal procedures are not presently offered at Jackson West Medical Center and Jackson South Medical Center.

This underlying contract can be terminated for convenience with a thirty (30) day written notice and includes UAP and OIG fees. The UAP and OIG fees are taken as deductions on the invoices.

This underlying contract was reviewed and approved by Risk Management as to insurance and liability and by the County Attorney's Office for legal sufficiency.

This procurement has been reviewed for SBE participation. The spinal implants products purchased under this agreement are provided from the original product manufacturer, Alphatec Spine, Inc. The opportunity to include an SBE partner is not available for this product purchase. Alphatec Spine, Inc. is aware of Jackson's SBE program and the expectation of vendor partners to advance that commitment.

In providing an evaluation of the vendor's performance during the current contract year, the Perioperative Services Departments have reported the following:

- The average turnaround time of services meets the standard.
- The deliverables meet the standard.
- The responsiveness to safety issues meets the standard.

In accordance with our Contractor Due Diligence Review, ATEC, has provided Sworn/ Notarized Statements to the Trust's Procurement Management Department that: (1) no lawsuits have been filed against the company within the five (5) years prior to submittal of a bid or proposal to the Trust; (2) the company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; (3) the company has not been debarred nor has the firm received formal notices of non-compliance or non-performance in the five (5) years prior to proposal submittals to the Trust.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations signed by Jorge Areces, Business Manager, Jackson Memorial Hospital; Sunitha Abraham, Sr. Director of Perioperative Department, Jackson Memorial Hospital; Oscar Betancourt, VP Jackson Memorial Hospital; Patricia Plair, CFO, Jackson Memorial Hospital; Katuiska Pallares, Nurse Manager, Jackson Memorial Hospital; Alejandro Cid, Director Business Operations of Perioperative Department, Jackson Memorial Hospital; Diana Peterson, Administrator, Jackson North Medical Center; Anna Marie Hoo, Director PCS level 2, Jackson North Medical Center; Loyman Marin, VP Jackson North Medical Center; Julie Dircks, CFO Jackson North Medical Center, and Bobby Anthony, Director Corporate Accounts, ATEC, with no reported disclosures **(M. Severe, H. Clark).**

SECTION VIII. MISCELLANEOUS

This section consists of procurement actions that may require Board approval not included under any other section of the Purchasing Report.

No items to report

TO: Amadeo Lopez-Castro III, Chairman
 and Members, Public Health Trust Board of Trustees

FROM: Carlos A. Migoya
 President and Chief Executive Officer

DATE: October 30, 2024

RE: Recommending Staggered Expiration Dates for Board of Trustees Members

Recommendation

Staff recommends the Public Health Trust Board of Trustees direct the Chief Executive Officer or his designee to seek approval from the Board of County Commissioners to modify the terms of three current Trust board members in order to achieve staggered expiration dates.

Scope

The proposed amendment would apply to three Public Health Trust Board of Trustees.

Fiscal Impact

There is no fiscal impact associated with this change.

Background

In 2013, as part of the sunset of the Financial Recovery Board, the Trust Board was reestablished with seven members. Five members are appointed by the Board of County Commissioners (BCC), one by the Miami-Dade County Mayor, and one by the Miami-Dade Delegation. Initially, two board members were appointed to serve up to two three-year terms, and three members were to serve up to three two-year terms. In 2018, the bylaws were amended, requiring all five BCC-appointed members to serve up to two three-year terms.

Four current board members' terms will expire in 2026. This could result in the loss of critical institutional knowledge, as a significant portion of the board would transition at the same time. Governance best practices urge a more gradual turnover process during normal operations, allowing for a steady blend of historical experience and fresh perspective.

To address this concern, staff recommends staggering the terms of three current board members. This adjustment would help mitigate the risk of losing valuable expertise simultaneously and create a more sustainable long-term schedule. Based upon the experience of most board members fully serving their terms since 2013, this recommendation can be expected to stabilize the turnover for the foreseeable future.

Given the complexity of operating one of the largest public hospital systems in the nation, and the largest in the State of Florida, it often takes many months, if not years, for board members to fully grasp the intricacies of this organization. Therefore, we believe it is in the best interest of Jackson and the community to stagger the terms of three board members, ensuring a continuity of knowledge and leadership.

Trustee	Tenure Began	Current Tenure Termination Date	Proposed Tenure Termination Date
Amadeo Lopez-Castro, III	1/29/2019	5/31/2026	5/31/2027
Carmen Sabater	6/2/2020	5/31/2026	5/31/2028
Anthony Argiz	6/2/2020	5/31/2026	5/31/2029

RESOLUTION NO. PHT 10/2024 - 053

**RESOLUTION DIRECTING THE CHIEF EXECUTIVE
OFFICER OR HIS DESIGNEE TO SEEK APPROVAL FROM
THE BOARD OF COUNTY COMMISSIONERS TO MODIFY
THE TERMS OF CERTAIN PUBLIC HEALTH TRUST
BOARD OF TRUSTEE MEMBERS IN ORDER TO CREATE
STAGGERED BOARD MEMBER TERMS OF SERVICE**

*(Carlos A. Migoya, President and Chief Executive Officer,
Jackson Health System)*

WHEREAS, pursuant to Section 25A-3(e) of the Code of Miami-Dade County, Florida (the “Code”), voting members of the Board of Trustees of the Public Health Trust of Miami-Dade County Florida (“Public Health Trust”), who are appointed by resolution of the Board of County Commissioners, shall serve staggered terms of three years each, and shall be permitted to serve no more than two consecutive and complete terms; and

WHEREAS, in 2026 four such voting members will reach their maximum years of service permitted under the Code, resulting in the simultaneous departure of a majority of the members of the Board of Trustees; and

WHEREAS, in order to align with governance best practices and avoid unreasonable disruption to operations, the Public Health Trust desires that members serve staggered terms in accordance with the recommendations in the memorandum attached hereto and incorporated herein by reference; and

WHEREAS, the Board of Trustees wishes to direct staff to pursue all required approvals from the Board of County Commissioners to accomplish same,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA, that:

Section 1. This Board hereby approves the foregoing recitals as if fully set forth herein.

Section 2. This Board directs the Chief Executive Officer or his designee to seek all necessary approvals from the Board of County Commissioners, or to take any other necessary actions, to accomplish the purpose of this Resolution.
